About MRSi

Midwest Reproductive Symposium international (MRSi), a non-profit 501(c)(3) organization, is an educational event that began in 2003 to promote the timely discussion of issues relevant to reproductive medicine. The primary objective is the provision of high quality, appropriate, continuing medical education for physicians, nurses, allied health professionals, scientists, and business experts engaged in the practice of and research in reproductive medicine.

MRSi's main event is a 3-day symposium consisting of a mix of lectures, panel discussions and interactive workshops. It offers attendees a unique opportunity to network with colleagues and exhibitors in casual and formal educational settings and to share knowledge and experiences in several rapidly advancing fields within reproductive medicine.
